ANNUAL REPORT 2021

Conservative Friends of NHS

ABOUT US

“The price of anything is the amount of life you exchange for it.” Henry David Thoreau

Conservative Friends of the NHS was founded by Dr Ashraf Chohan in 2019. There was perception that NHS staff support Labour. Labour Party also claims that NHS was formed by them. To undo this perception it is essential to form this group. Conservative Friends of the NHS consists of doctors, paramedics, nurses, allied health professionals, and other healthcare workers that aim to build long term support for the Conservative Party and enhance the support for the NHS, through our active outreach programmes to further the party's commitment to inclusivity. We address the lack of political diversity and representation by encouraging members to run for office.

OUR TEAM

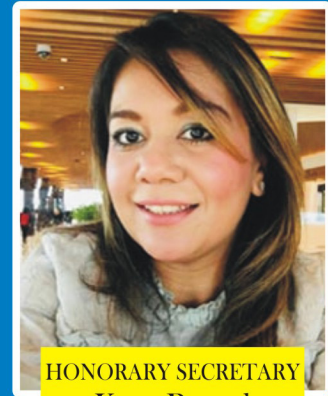

CFONHS is backed by a dedicated group of people who are always on the front lines when it comes to promoting the party and the NHS.

CHAIRMAN CFONHS Dr Ashraf Chohan
PRESIDENT & PATRON CFONHS Maria Caulfield

Conservative
Party Politician

Lord Rami
Ranger
Member house
of Lords

OUR CAMPAIGNS

CFONHS support candidates and their campaigns, and we seek to ensure that medical/NHS professionals' challenges are fairly presented in Parliament at all levels. Both the Conservative Party and the NHS hold a special place in our hearts.

1-Our first campaign was in 2019 during elections where CFONHS tried to get few NHS workers to support conservatives on the media which was hard.

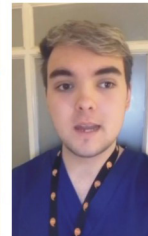

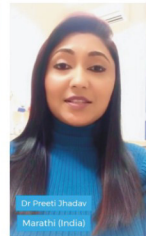

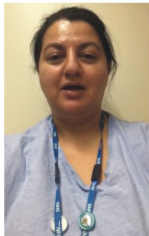

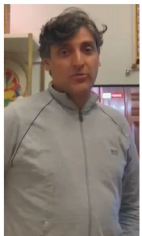

2-Covid 19 Vaccination in which workers from NHS with different ethnicities gave their message to everyone to get their Jab as soon as it gets available to them.

3-CANVASSING for the 6th May 2021 London Mayor election.

4-The NHS marked its 73rd birthday on 5th July 2021 following an unprecedented year of challenges not only for the NHS but for the whole world. Team CFONHS celebrates this day with the NHS staff, volunteers and local community.
